He Also Files Memeranda Giving His Reasons for Not Signing the Barren Island Nutsance Bill, the Bill Regulating the Hours of Drug Clerks and Other Bills. ALBANY, May 27.-The thirty days allowed Gov. Roosevelt under the Constitution to consider the bills left him by the Legislature when it adjourned its regular session in April last expired to-night. This year the thirty-day bills numbered 302, of which the Governor signed 197. The remainder were either vetoed

year was 614. There are 741 laws this year, compared with 676 last year.

The Governor has refused to sign Benstor Coggeshall's Pure Beer bill. In declining to approve the bill, Gov. Roosevelt says in a mem-

by Mayors of cities or allowed to die by the

Governor. The number of thirty-day bills last

This bill seemingly does nothing more than repeal the Public Health law, Arnele III., section 41, subdivision 7C. The cubils Health law says: 'An article shall be deemed to be adulterated, in the case of ale or beer, if it contains any substitute for hops or pure extract of hops, or if any such substitute is used in the manufacture thereof.'

'The present bill says: 'After the passage of this act no substitute for hope or pure extract of hops shall be used in the manufacture of ale or beer sold or offered for sale in this State. All ale or beer shown to contain any substance used as a substitute for hops or pure extract

These provisions are absolutely identical, the present bill on the statute books. The fine section of the present bill provides that in addition to the fine of \$100 for violating the provision of the Public Health law against adulterations, it shall be permissible to add imprisonment in the county jail for three months. This would make it possible to inflict a far severer penalty upon a man who should adulterate beer than upon the man who, for instance, should violate section 41, subdivision B 5, of the Public Health law by selling food composed of diseased or decomposed or putrid or rotten animal or vegetable substance. It is obviously absurd to provide a heavier penalty for the adulteration of beer than for using putrid and rotten animal substance and adulterating food."

BARREN ISLAND NUISANCE BILL.

In declining to sign Assemblyman Doughty's bill providing for the immediate abolition of the garbage works on Barren Island, Gov. Roosevelt has filed the following memorandum: "If the supplemental Barren Island bill, postponing for six months the operation of

both it and the present measure, and the advocates of destroying the Barren Island nulsance are in part responsible for the defeat of their measure, as it was within their power, by the exercise of care and forethought, to have embodied the supplemental measure in this which actually passed. But with only the present bill before me, I find, by consultation with the health officers of the port of New York and other authorities, that serious trouble would in all probability follow upon signing it. It takes effect immediately, that is at the beginning of the hot season, and it neither provides, nor gives time to provide, for the establishment of any other method of disposing of the garbage, dead animals, &c., of New York city. If given three or four months the city authorities could, without any queetion, develop a plan for the proper disposal of the garbage, and with this warning they can have no excuse for failure to provides such method in the future, if at the next session of the Legislature a bill similar to the present bill, but giving a reasonable time before going into effect, is passed. If, during the coming summer the nuisance complained of is unabated, such a bill will unquestionably be introduced and enacted into a law. If the garbage queetion cannot be disposed of under the present method, save by creating a nuisance to numerous citizens of the city, then that method must be altered. The present summer will undoubtedly determine whether or not such nuisance can be abated. If it is not done away with, then the city authorities and those responsible for creating the nuisance may as well make up their minds that it will be abolished by law, and the responsibility will rest with them for any complications that may ensue. Meanwhile I shall send copies of this memoranium to the State Board of Healthand to the Health Officer of the port of New York, directing them to communicate with the Health Board of the city of New York, and by next fall to report to me upon the exact condition of affairs and upon what remedies can be adopted—and some remedies must be adopted—in case the nuisance caused to the people on the shores effected is not done away with this summer.

\*\*REQUILATING HOURS OF DEUG CLERES.\*\*

The Governor has found, it impossible to apwith the health officers of the port of New York and other authorities, that serious trouble

clerks. These are the Governor's reasons:

"After carefully investigating this matter and getting reports from a large number of disinterested outsiders, who have sought to find out on the ground, not only the equity of the case but the feeling of the elerks interested. I have come to the conclusion that on the whole less injustice will result from whiting another year for the proper method of relief than would result from signing the bill in its present shape. The drug clerks are hopelessly divided on this bill, and a very large number of them feel that if signed it would probably work a serious hardship to them in the way of interfering with their days off and even with their vacations. There is no question that there should be shorter hours for drug clerks, and that in some cases at present hardship results from the length of hours. There is further no question that there should be shorter hours for drug clerks, and that in some cases at proper measure, and should they continue in this attitude of mere obstruction it will probably result in the necessity of accepting any measure, no matter what conditions it may contain, rather than to submit to total lack of relief; but it is certainly wise to give one more chance for the passage of a proper measure, and it is to be hoped that the passage of a heroper measure. The making such a change of policy as was attempted in this bill it was greatly desirable to make the file of any measure whatever. In making such a change of policy as was attempted in this bill it was greatly desirable to make the discountion fet as little as may be, and above all, to be careful that the bill does not damage those whom it purposes to protect."

THE THEATBE TICRET BILL.

Assemblyman Ware's bill to prohibit fraud

THE THEATRE PICEET BILL.

Assemblyman Ware's bill to prohibit fraud in the sale of theatre tickers has been sllowed to die by Gov. Repsevelt. These are the tiovernor's reasons for not signing the bill.

It appears that this bill passed the Legislature on April 26, but it did not reach the Executive Chamber until May 25, and it was then impossible for me to take it up until May 27, owing to the immense pressure of public business. The bill seems to be right in principle, but it is so drawn as to affect not merely theatres, but in all probability every form of public entertainment, such as Chautanquae, church fairs and the like, whether great or small, for which an admission price is charged. I am inclined to think that even as regards these it is right, at least in principle, but it is wholly impossible now to consult the interests that would be affected so as to find out whether or not the bill would, in its action, work hardship to some of them. THE THEATRE PICKET BILL. BILLS AFFECTING NEW YORK POLICE AND FIRE-

Gov. Boosevelt has allowed to die a number of bills designed to allow the New York city Poince Board and the New York city Fire Commission to reinstate certain former members of the re-spective departments. Under the bills vetoed the following sought reinstatement in the to reinstate certain former members of the respective departments. Under the bills vetocal the following sought reinstatement in the Police Department: Charles B. Von Gerichten, Adolphus Brown, Patrick Ginley, John Fitzgibbons, William R. Markell, Bernard Meehan, Thomas Cassidy, George H. Walsh, Thomas G. Mellon, John A. Dourigan, William W. O'Connor, Michael McGrath, George Curtis Du Bois, Adolph S. Wasserman and Thomas P. Wilson. Henry A. Rehwinkel and John J. Engit sought to get back in the Fire Jepartment. In disapproving of the bills, Gov. Roosevelt says:

right aought to get back in the Fire Department. In disapproving of the bills, Gov. Roosevelt says:

"These bills form a class by themselves. They are designed to permit the recentry into the Police and Fire Department of men who have resigned or who have been removed upon charges which it is contended were unjust. If I should sign them it would form a precedent for similar action in the case of certainly hundreds, and probably thousands, of other men who have been removed, or who have resigned in like manner. From the inquiries I have been able to make, I am inclined to think that in one or two instances among the bills before me the man may have suffered an injustice in the past; that in two or three instances it is practically certain that no injustice has been done; and that in the great bulk of the cases there are no means whatever for finding out the rights of the matter. In any event, it is obviously impossable for either the Governor or the legislature to decide on the merits of each individual case. A general policy must be adopted to meetal the cases. Either some general law should be passed providing opportunity of rehearing and reinstatement in the case of firemen and

policemen who are removed from the department or else the practice should be observed of passing only upon cases where the Firs Department or Police Department requests the Legislature to act; or else we should adhere to the present system, realizing that occasional injustice may be done to an individual, but accepting this as preferable to the alternative of never treating any decision as final. Possibly the best method might be a provision in the charter to provide that within a certain pariod of time a rehearing of any case should be had on application of the person against whom charges were made, or, in the event of a resignation, that a reinstatement may be allowed on a similar request. In any event, it is extremely undesirable to deal with these cases by the haphazard method of passing laws to allow rehearings."

LABOR BILLS ALLOWED TO DIE. Among other bills which Gov. Roosevelt allowed to die was Assemblyman Fallows's bill amending the Labor law in relation to the protection of bersons employed on buildings in the cities of the State, and Assemblyman Egan's bill amending the Labor law by providing for safety appliances on scaffolding for the use of employees. The Fallows bill amends a section of the Labor law previously amended this year and regarding the Egan bill Gov. Roosevetters.

year and regarding the Egan bill Gov. Roose-year and regarding the Egan bill Gov. Roose-vert says:

The bill is so drawn as to make it ques-sionable whether, under its provisions, all will gre would not have to purchase a certain parvased device. This being the case, it is not leanable to sign it."

OTHER BILLS ALLOWED TO DIE. among the other bills which Gov. Roosevelt altewed to die are the following:

Sanator Macker's, to permit experiments and the specion of a bridge by along C. Mather for developing the power of Niagara River at the city of Buffalo, the bridge to extend from Buffalo to Canada and to have power wheels attached thereto.

\*\*EXCULATION HOURS OF DRUG CLERES.\*\*

The Governor has found it impossible to approve of Assemblyman Minher's bill regulating the hours of service of New York city drug clerks. These are the Governor's reasons:

"After carefully investigating this matter and getting reports from a large number of disinterested outsiders, who have sought to find out on the ground, not only the camero."

Assemblyman Brennan's, repealing chapter 711 of the was of 1894, entitled "An act in relation to the commitment, care and support of destinute children in the commitment, care and support of destinute children in the committee, care and support of destinute children in the committee, care and support of destinute, care and support of destinu

INDIANS WRITE TO THE GOVERNOR. Twelve Life Chiefs Protest Against an

Election on St. Regis Reservation. ALBANY, May 27 .- Gov. Roosevelt to-day received a communication which interested him very much. It was just such a letter as might years ago. The communication follows:

I'St. REGIS RESERVE, May 22. "To the Governor of New York, Albany, N. Y.
"We, the twelve life chiefs of the Iroquois
tribe of Indians, residing in St. Regis, do presume to address our brother, the Governor of
New York, on a subject of great importance
to us.

New York, on a subject of great importance to us.

"Brother: We have been informed that there is to be another election day on this reservation in the near future, and would inform our brother that it is greatly against the wishes of the tribe to have such proceedings within the bounds of this reservation, learing the consequences might be the death of another member of our tribe.

"There may be elections taking place all over the State, and if any of our members so favor the election system that they will vote they are free to do so by going outside the reservation, and may be compelled to stay out.

Brother, you have now heard of our words, and, hoping an early reply, we remain yours trait.

Goy, Roosevelt Repudiates an Alleged Interview in the Brooklyn Eagle.

ALBANY, May 27.-Gov. Roosevelt was considerably wrought up to-day over an alleged interview in last night's Brooklyn Eagle, which pretended to set forth his attitude regarding the talk of his being a candidate for President the talk of his being a candidate for Fresident or for a renomination as Governor. He declared that he had had no such interview. Assertions, that he had spoken directly or indirectly with Senator Flatt or anybody else on such matters as set forth by the Kagle were so alsourd as to be hardly worth noticing, he said. The Governor then repeated his assurances to the newspaper correspondents that any interview that he might give out of any kind would be given out here to all of them together.

GOV. ROOSEFELT'S PLANS. Engagements That Will Keep Him Busy

Until June 30-His Summer Vacation. ALBANY, May 27.-Gov. Roosevelt has an en gagement that will keep him busy during the month of June. In July and August he spend his time at Oyster Bay with his family, occasionally running up to Albany. He desired it to be thoroughly understood that no off Bay, and announces that when he is not in Albany all communications must reach him through his secretary, who will be in Albany during those months. To-morrow afternoon Gov. Roosevelt will leave for Stock bridge, Mass., with his family, on a social visit On Monday night he will be in New York. On Tuesday morning he will review the G. A. R. parade in Brooklyn, and later will be the guest of the veterans at the Hanover Club. On Tuesday afternoon he will be at Grant's tomb when the veterans of Manhattan Island visit there, and in the evening he will be present at a veterans' memorial service in the Academy of Music. Wednesday the Governor will spend at Oyster Bay, and he will attend to private business in New York on Tuesday. If Senator Platt is in town on that day the Governor will see him. On Friday afternoon the Governor will ioin and accompany Squadron A and Troop C on their ride to the State Camp, where he will spend Bunday. The following Monday he will be at West Point, Tuesday at New York city, Wednesday he will attend the commencement exercises of Columbia University and on Thursday, June 8, he will be in Aihany. The next day he will attend the unveiling of the Douglas Monument at Rochester, whence he will proceed to the State Camp, leaving there for Oyster Bay on Monday, June 12, where he will remain until he leaves for Ithacato datend the Cornell commencement exercises on June 20 and 21.

On June 24 the Governor will be at Las Vegas, Tex. to attend a reunion of his rough riders' regiment, the occasion being the anniversary of the battle of Las Guasimas. On Aug. 19 the Governor will be at Chautauqua, and the following day at the Catholic Summer School at Plattsburg. During September the Governor will visit several county fairs, for which he has already made engagements.

The Governor is much pleased at the work of the Advisory Canal Committee. The committee, on its recent inspection of the Welland Canali Canada, found that the officials who have supervision of its operation had been in office from twenty to thirty years, paying little attention to politics. The Governor says a similar state of affairs must be inaugurated in this State if the fullest commercial benefits are to be secured from the operations of the canals. parade in Brooklyn, and later will be the guest of the veterans at the Hanover Club. TAX CASE WON BY STUTFESANT FISH. Not Liable on Newport Property He Did

NEWPORT, May 27 .- Stuyvesant Pish of New York has won his case against the tax collector of the city of Newport, the Supreme Court today handing down a decision sustaining his femurrer and dismissing the bill. Mr. Fish bought a piece of land from the Newport Hos-

bought a piece of land from the Newport Hospital upon which he erected a stable, and it was ever this that the lawsuit occurred. When the books of the tax collectors were closed in in 1848 they included the parcel of land as part of the estate of Mr. Fish, but he declined to pay the taxes on the ground that he did not own the property on May 10, when the tax books were closed.

Tax Collector Higbee pointed out to Mr. Fish that the deed of conveyance bore the date of Feb. 16, but Mr. Fish said that, not withstanding that fact, he did not come in possession of the property until after May 10. Mr. Fish received notice from the Collector that the land would be sold for non-payment of taxes, and he applied to the Eupreme Court for an injunction to prevent the sale of the land until the merits of the question were determined by the court, resulting in to-day's decision.

TROOPS COMING FROM CUBA.

Mineteenth Infantry to Try Again This Week to Get Away.

The Second Volunteer Infantry, immunes, are expected to arrive here to-morrow on the United States transport Logan. They left Gibara, Cuba, on May 25. On their arrival here they will go direct to Camp Meade. Pa., where they will be mustered out.

The Nineteenth United States Infantry are expected to leave Ponce, Porto Rico, on May 30, expected to leave Ponce, Porto Rico, on May 30, on the transport Meade. This will be the third attempt of the regiment to get started. A week ago the Meade, with the Nineteenth on board, ran aground in Ponce harbor and had to put back. A second attempt was made two days later, but the Meade leaked so badly from her former accident that she had to put back again. If this third start is successful the Nineteenth will get here about June 3. They will go to Camp Meade, where they will remain until June 15. Then they will go to San Francisco, and on June 20 they will sail for the Philippines.

KANAWHA SUCCESSFULLY LAUNCHED. John P. Duncan's New Steamer Put Into the Water at Morris Heights.

Duncan and a party of friends went to Morris
Heights on a special train that left the Grand
Central depot at 10 o'clock. A big barse had
been moored near the slip from which the boat
was launched, and this was crowded with
slightseers. A band was stationed there, too,
and a saluting cannon.

Mr. and Mrs. Duncan and their friends
boarded the vacht as soon as they arrived at
the yard, and then when all was ready the men
kaocked away the shores and a few minutes
before 11 o'clock began to cut through the
stringplece. It was just two minutes to 11
o'clock when the last quarter of an inch was
cut and the yacht began to slide slowly down
the ways to the water. As her stern touched
the water Miss Amy Lee Duncan broke the
bottle of chamongne and christened the boat.
The Kanawha was soon brought back to the
dock and then the hundreds of visitors
swarmed on board and inspected the new boat
from stem to stern.

This boat is built to replace the old Kanawha which Mr. Duncan sold to the Government last year. She is the third Mr. Duncan
has had. The dimensions of this boat are:
Length over all, 227 feet; beam, 24 feet; depth,
15 feet; draught, 10 feet. The hoat is built of
steel and has five watertight builkheads.

The Kanawha will be flush deck, schooner
rigged, with three masts with a yard on the
foremast. Her guaranteed speed is twentytwo miles an hour.

MARINE AND FIELD GOLF.

TRAVIS BEATS BOWNS IN THE IN-FITATION TOURNEY,

Staten Island Cricket, Richmond County, Powelton and Nassau Country Teams Win Matches-Tyng and Miss Bryce Win in the Championships at Merris County. Bright sunshine and a light breeze from off Gravesend Bay made golfing very pleasant at the round-up of the Marine and Field Club invitation tournament yesterday. A large crowd followed Travis and Bowns in the final round for the cup, and, as the spectators spread out on the parklike course, the sight was a novel one. On a long and open links 2,000 persons would not have made as impressive a "gallery" as one-half that number made yesterday on the course at Dyker Heights. Travis again carried off the honors of the day with impressive ease, and, should it be true that he is not to go West for the amateur championship, the winner will bear barren honors until he afterward beats the Oakland player. In the morning Travis beat Van Brunt by 7 up and 6 to play, making by strokes a score only a point above the record he established on Friday. The eard was: 

This score won for Travis the silver flask for the best gross score in the handleap for the Dyker Park Cup. In the afternoon Travis was the winner from Bowns by 5 up and 4 to play. Their cards were: 

The finalists for the Consolation Cup were A. P. Clapp of the home club and F. M. Freeman. First Freeman was 2 up, then Clappled by the same score. Then they were square and alternated holes to the seventeenth, when they were still all even. Freeman was bun-kered on his second for the home hole, Clapp winning by I up. Poughegerste, May 27. The final match for POTOREEEPSIE, May 27.—The final match for the John E. Adriance Cup, postponed from last season, was played on the links of the Dutchess County Goif Club to-day. Considerable interest was centred on the game, as any one of five stood to win: R. T. Pelton, John Smith, W. H. Young, George Collingwood and H. H. Valentine. Smith was handicapped plus 5. Pelton proved the winner after a close match with Smith, the gross score being a tie. Smith appeared to have the game well in hand, but the bunker and trap at the sixteenth hole proved his Waterloo.

Newburg, May 27.—The Nutley Golf Club visited the Powelfon Club to-day and brought with them a team of three women players headed by Mrs. Berg. She beat the Powelfon champing, Mrs. Fouch, by 10 up. Mrs. Berg has a very easy style, a full swing and follows through beautifully. She played splendid golf and it was a treat to watch her. The Newburg players hope to see her a starter in the wonen's championship. Mrs. Collingwood of the home club beat Mrs. Morgan rather easily, and Miss lookwell beat Miss Grace Jenkins by 1 up after a hot match. The men's match resulted in a win for Powelton by the following score: score:

Mrs. Mathilde Richter, Doniphan, Neb.

Says: "I suffered from catarrh for many years, but since I have been taking Pe-ru-na I feel strong and well. I would advise all people to try Pe-ru-na. As I used Pe-ru-na and Man-a-lin while I was passing through the change of life, I am positively convinced your beneficial remedies have relieved me from all my ills." Pe-ru-na has raised more women from

Harvard.

CAMBRIDGE, May 27.—Princeton simply out-classed Harvard at every point in the basehall

game this afternoon. Hillebrand pitched a magnificent game, having phenomenal control and keeping the ball just where the Harvard batters could not get at it. If he had carried

the ball up to the corners of the plate in his hand, he could not have placed it better. Kafer supported him in grand style and gave the finest exhibition of backstopping seen here this season. Fitz. too, had remarkably good control, but Princeton had little difficulty in

finding him. Reid caught a remarkable game, falling little below Kafer's standard. Suter

gave the best exhibition of batting, having three hits, including a three and a two base

hit and a single. He placed the ball beautifully

just where he wanted it each time, just out of

Dibblee's reach. Harrison was a close second

with three well-placed singles, while Hillebrand

TACHTSMEN'S LIVELY DAY.

Opening Ceremonies of the Season at the Larchmont Club.

The Larchmont Yacht Club opened its headquarters for the season yesterday afternoon. It is a long time since so many yachtsmen gathered at the popular clubhouse, and the house and grounds never looked better. In the harbora big fleet of yachts added to the beauty of the scene. Among these were: Commodore Clarence A. Postley's schooner Colonia, Vice-Commodore Hatch's yawl Huron, Rear Commodore P. T. Dodge's schooner Clorita, W. Gould Brokaw's schooner Amorita. H. F. Lippitt's schooner Quisetta, C. Buchanan's schooner Uncas, Archibald Watt's steamer American, John A. Hanan's steamer Sagamore, J. Renwick's steamer Giraida, W. Murray's steamer Jessie and many more. They

were all dressed with flags. At 4 o'clock, at a signal from the flagship, the blue and white flag of the club was broken out on the flagstaff in front of the clubhouse and the Stars and Stripes were hoisted on the yard. The old Colt gun on the lawn was yard. The old Colt gun on the lawn was fired, the yachts in the fleet saluted, the Seventh Regiment band played "The Star-Seangled Banner," and every one cheered, Commodore Postley then addressed the members. He talked of the brillians outlook for yachting, and said the races for the America's Cup would bring a brilliant season to a brilliant close. Speaking of the Columbia and Defender, he announced that it has been agreed that the second trial of these two yachts should be sailed in the annual regatta of the club on July 4. This was greeted with loud cheers from all present. "Admira" Dave Gilbert of the "Rocking Chair Fleet" read a poem, which caused some fun, and then Augustin Munroe read two more poems. Heid was the only Harvard man to do any real hitting, one of his hits, a sharp drive, would have gone to the fence for a homer had not Suter cought it on the first bound; his other was a sharp liner down the third base line. Clark's single was an easy pop fly just out of the outlielders' reach, while Gaibraith's was an easy bunt. Reid and Goodrich were the only Harvard men who played college standard bail. Tim Hurst was to have umpired, but as he was not on hand Murray was pressed into service and umpired satisfactorily. There were 2,500 present. The score: an Easy Victory. The New Rochelle Yacht Clubhouse was opened for the season yesterday afternoon, and the event was celebrated with a special regatta. Twelve yachts started and a fresh southwesterly breeze furnished some good sport. The preparatory signal was given at 2:30 o'clock and five minutes later the yawls went off. The Possum went over the line with the gun, followed 15 seconds later by the Veery and later on by the Twilight and Addie. The cabin catboats were started at 2:40 on by the Iwangat and Addie. Inc. cabin catboats were started at 2:40 o'clock. The Win or Lose crossed first and had two receis in her sail. The Osage was about 100 yards astern. At 2:45 the signal for the 25-foot knockabouts was given. J. Rogers, Maxwell sailed his son's new boat Oiseau, which was built by Herreshoff. He loafed about the line for a while waiting for the Alyce, but as that boat was badly handlesneed the Oiseau went on and proved an easy winner. At 2:50 o'clock the 21-foot knockabouts started. Mongoose, with Hazen Morse at the stick, was first over; Kantaka, sailed by F. Bowne Jones, was next, a little to windward, and then came the Theiga and Spindrift.

It was a reach with lifted sheets and bosms to port to the first mark, the busy on Hen and Chickens, then a beat to middle ground and a broad reach with booms to port to the home mark. This course was sailed twice, making eight and one half miles, The Veery, which sailed har first race, passed the Possum at the first mark, and at the second mark had gained such a lead that the race was never afterward in doubt. The Mongoose and Spindrift had a very close race. Mongone and Spindrift had a very close race.

ond mark had gained such a lead that the race was never afterward in doubt. The Mongoose and Spindrift had a very close race. Mongoose lost on the windward leg but made up some of this by heing better handled at the end of the first round. It was pip and tuck all round the course, and Spindrift got the race by 24 seconds. on the Government and State steamers, Naval Academy steam launches and smaller craft were able to witness the race from start to finish, though a number walked two miles or more in order to see the start.

The opposing crews in their different shells were in company when they left the Naval Academy boathouse, and about 3:30, when both shells had lined un alongside the torpedo boat Manley, the judges boat Referee Dashiell shouted to each crew, giving instructions as to the start. The cadets boat was to the leavard, nearest the judges craft. Are you ready, Yale? was asked, and being answered affirmatively, the same question was put to the cadets, with the same answer. Then go, and with a dash both pulled away from the starting point. These who closely watched the movements of the shells say from the start it was apparent that Yale was the winner. With a long, stendy stroke, about 34 to the minute, she went immediately ahead, continuing the lead throughout. The Yale crew continued the 34 stroke until near the finish, crossing the line with a 35 stroke.

While the race was in progress the naphtha yacht Sweetheart, owned by Mr. C. G. Burgoyne of New York, arrived from Richmond, Va., on a cruise.
